

Installing instruNet Software on non-Internet Computers

Application Note #215, 7/9/2003

To download one instruNet software installation file from the Internet that can be installed on multiple Windows computers, not attached to the Internet, please do the following steps:

Visit:

www.instrunet.com/d

Click on:

Install instruNet Software For Windows >= v2.0

Click on:

"To install instruNet Windows software on OTHER computers, click here."

And follow the displayed instructions.

Also, if one installs using the instruNet CD, it is not necessary to be attached to the Internet.
